PROJECTS

Film Vault | *Vite, React.js, Bootstrap, TMDB API, Axios*   **December 2024**
- Built a movie management app allowing users to explore trending movies and manage a personalized watchlist.
- Implemented a watchlist with features such as adding/removing movies, displaying details (rating, genre, popularity), and sorting/searching by genre.
- Used localStorage to persist watchlist data across sessions, enhancing the user experience.
- Integrated TMDB API for movie data, Axios for API calls, and Bootstrap for responsive design, ensuring compatibility across devices.

Restaurant Website | *React.js, Bootstrap*   **September 2024**
- Developed a dynamic restaurant website with a user-friendly interface for browsing menu items and restaurant details.
- Utilized Bootstrap for responsive design, ensuring the website functions well on both desktop and mobile devices.

Banking Management System | *C++, DSA*   **August 2024**
- Developed a console-based Banking Management System to replicate core banking operations.
- Implemented features for account creation, balance inquiry, deposit, withdrawal, and money transfer.

Cricket Website (CricTribute) | *HTML, CSS, JS, Bootstrap*   **May 2024**
- Built a cricket-themed site featuring player stats, interactive elements, and a responsive layout.
- Ensured seamless user experience and compatibility across devices using HTML, CSS, JavaScript, and Bootstrap.
